Original SHEET NO. 10

I. RATES AND CHARGES

D. CHARGES FOR NON-RECURRING SERVICES

These charges will be assessed only when a sewer customer obtains his water service from another water system or when the non-recurring service is related to the sewer service only.

1. Service Connection Charge. A charge of \$8.00 shall be made for all service (R)
reconnections made during regular working hours, except that no charge shall be made
when the applicable connect fee is paid on the initial connection to the sewer system. If
service is reconnected other than during regular working hours, the charge shall be (R)
\$57.00*
2. Delinquent Service Charge. A charge of \$6.00 shall be made for a trip to collect a (R)
delinquent account or terminate service. Where a customer's service has been
discontinued for nonpayment of bills and the delinquent customer has paid his or her
outstanding bills for service and requested reconnection, the Water District shall assess a
service connection charge in addition to a delinquent service charge to re-establish
service.
3. Meter Reading Recheck Charge. A charge of \$8.00 shall be made for a trip to recheck a (R)
meter reading when the customer requests the meter to be rechecked for a correct reading
and the meter was nor misread.

4. Service Investigation Charge. A charge of \$12.00 per trip shall be made for service (R)
investigation during regular working hours if interruption of service or service
problem is associated with customers own plumbing facilities and beyond the
District's delivery point and is not caused by failure of District's facilities. The
charge for investigation requested after working hours will be \$104.00 per trip* Any (I)(T)
maintenance and repair of facilities beyond District's delivery point is the
responsibility of the customer.
5. Investigation Charge. When an investigation of facilities on customer's premises (R)(T)
reveals unauthorized use of the sewer system, the actual cost of repairing damage
and correcting the improper service connection, if any, shall be charges to the
customer in addition to the amount due for service rendered.
6. Returned Payment Charge. When a payment, whether by check, auto payment,
credit card or other electronic payment, is accepted for payment of a bill and the
payment is not honored by the financial institution, a returned payment charge of (R)
\$12.00 shall be charged.
7. Service Line Inspection Charge. A charge of \$12.00 shall be made to inspect a (R)
customer's service line from the point of use by the customer to the District's point
of acceptance of wastewater. The service line inspection charge may be waived if
confirmation is received from the Kentucky State Plumbing Inspector that a state
plumbing permit has been obtained and the State Plumbing Inspector will inspect
the service line.

* Regular working hours are 7:30 a.m. – 3:00 p.m. Monday – Friday (excluding holidays)
After hours charges are applied when the customer requests services be performed at any (T)
other time besides regular working hours. Connection/reconnection of service shall only
be performed daily between 7:30 a.m. and 8:00 p.m.

II. RULES AND REGULATIONS

A. SERVICE INFORMATION

1. Application for Service. Each prospective customer desiring sewer service may be required to sign the District's standard Application for Sewer Service before service is supplied by the District.
2. Nonstandard Service. Customer shall pay the cost of any special installation necessary to meet his peculiar requirements for service other than standard 6-inch sewer tap.
3. Discontinuance of Service by District. District may refuse to connect or may discontinue service for the violation of any of its Rules and Regulations, for noncompliance with the Public Service Commission's Administrative Regulations or for violation of any of the provisions of the schedule of Rates and Charges, or of the Application for Service or the contract with customer. District may discontinue service to customer for the theft of water or the appearance of water theft devices on premises of customer or for failure by the customer to properly maintain his sewer service line or appurtenances. The discontinuance of service by District for any causes as stated in this rule does not release customer from his obligation to District for the payment of minimum bills as specified in Application for Service or contract with customer.
4. Termination of Contract by Customer. Customers who have fulfilled their contract terms and wish to discontinue service must give at least three (3) days' written notice to that effect, unless contract specified otherwise. Notice to discontinue service prior to expiration of contract term will not relieve customer from minimum or guaranteed payment under any contract or rate.

II. RULES AND REGULATIONS

5. Interruption of Service. The District will use reasonable diligence in supplying water and sewer service, but shall not be liable for breach of contract in the event of, or for loss, injury, or damage to persons or property resulting from interruptions in service, excessive or inadequate water pressure, sewage stop-ups, or otherwise unsatisfactory service, whether or not caused by negligence.
6. Additional Load. The service connection supplied by the District for each customer has a definite capacity, and no addition to the equipment or load connected thereto will be allowed except by consent of the District. Failure to give notice of additions or changes in load, and to obtain the District's consent for same, shall render the customer liable for any damage to any of the District's lines or equipment caused by the additional or changed installation.
7. Notice of Trouble. Customer shall notify the District immediately should the service be unsatisfactory for any reason, or should there be any defects, trouble, or accidents affecting the supply of water or sewage. Such notices, if verbal, should be confirmed in writing.

B. SPECIAL RULES OR REQUIREMENTS

1. Scope. This schedule of Rules and Regulations is a part of all contracts for receiving sewer service from the District, and applies to all service received from the District, whether the service is based upon contract, agreement, signed application or otherwise. A copy of this schedule, together with a copy of the District's schedule of Rates and Charges, shall be kept open to inspection at the office of the District. In addition to the District's Rules and Regulations, the regulations of the Kentucky Public Service Commission shall also apply to water and sewer service provided by the District.

II. RULES AND REGULATIONS

2. Revisions. These Rules and Regulations may be revised, amended, supplemented, or otherwise changed from time to time without notice. Such changes, when effective, shall have the same force as the present Rules and Regulations.
3. Conflict. In case of conflict between any provision of any rate schedule and the schedule of Rules and Regulations, the rate schedule shall apply.
4. Damage to District's Sewer System. No person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the District's sewage works. Any person violating this provision shall be subject to immediate arrest and discontinuation of water and/or sewer services.
5. Right of Access. The applicant must agree to permit the District to lay, maintain, repair, or remove the sewer main, which is the property of the District located on the applicant's property with the right of ingress and egress over applicant's property. The District's duly authorized representative and/or other duly authorized employee of the State Health Department bearing proper credentials and identification shall be permitted to enter upon all properties for the purpose of inspection, observation, measurement, sampling, and testing.
6. Inspection. The District shall have the right, but shall not be obligated, to inspect any installation before sewage is discharged or at any later time, and reserves the right to reject any sewer construction not in accordance with the District's standards; but such inspection or failure to inspect or reject shall not render the District liable or responsible for any loss or damage resulting from defects in the installation, or from violation of District's rules, or from accidents which may occur upon applicant's premises.

II. RULES AND REGULATIONS

7. Customer's Responsibility For District's Property. All meters, sewer connections, and other equipment furnished by District shall be, and remain, the property of District. Applicant shall provide a space for and exercise the proper care to protect the property of District on its premises; and, in the event of loss or damage to District's property arising from neglect of customer to care for same, the cost of the necessary repairs or replacements shall be paid by applicant.
8. Customer's Liability. No person shall discharge or cause to be discharged into the sewer, any harmful waters or wastes, whether liquid, solid, or gas, capable of causing obstruction to the flow in sewers, damage or hazard to structures, equipment, and personnel of the sewage works, or other interferences with the proper operation of the sewage works. Applicant who discharges or causes to be discharged, any harmful waters or wastes into the sewer shall be held liable for ensuing damages.
9. Sewer Use Ordinance. Waste water received and transported by the District is discharged to the sewer system of Bowling Green Municipal Utilities for further transport, treatment and disposal. Therefore, all customers of the District must comply with applicable sections of the city of Bowling Green Sewer Use Ordinance.
10. Resolutions or Ordinances Requiring Connection to Sewer. Any City or County Resolution or Ordinance pertaining to the requirement that all homes, businesses and other establishments within the territorial limits of the City or County that have sewer service available as defined in the City or County Resolution or Ordinance shall become water and sewer customers of the District and connect to the sewer system. Such customer shall be liable to the District for the connect fee and monthly bill as set forth in the District's tariffs.

II. RULES AND REGULATIONS

11. Acceptable Wastewater. Only wastewater generated by usage of potable water is allowed to be discharged into the sewer. Storm drains, roof drains, surface flow, etc., shall not be permitted to be discharged into the sewer.
12. Industrial Wastewater Pretreatment. If the customer's wastewater exhibits any harmful or objectionable characteristics (See Section II. B. 9. Sewer Use Ordinance), the customer shall provide at his expense such preliminary treatment as may be necessary to treat these wastes prior to discharge to the sanitary sewer. Plans, specifications, and any other pertinent information relating to the proposed preliminary treatment facilities shall be submitted for the approval of the District and the state Division of Water, and no construction of such facilities shall be commenced until said approval is obtained in writing. Where preliminary treatment facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the customer as his expense.
13. Industrial Wastewater Testing. When required by the District, the customer who discharges industrial wastes shall install and maintain at his expense a suitable control manhole in the sewer service line to facilitate observation, sampling, and measurement of the wastes. All measurements, tests, and analyses of the characteristics of waters and wastes shall be determined at the control manhole and upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the District's sanitary sewer to the point at which the customer's sewer service line is connected.

II. RULES AND REGULATIONS

C. BILLINGS, METER READINGS, AND RELATED INFORMATION

1. Billing. Bills will be rendered monthly and shall be paid within 16 days from date of bill (the "due date") at the office of the District.. Should bills not be paid as above, the District may at any time thereafter, upon five days' written notice to customer ("Past Due Notice"), discontinue service.

Bills paid on or before the due date shall be payable at the net amount, but thereafter the gross amount shall apply. The gross amount includes the late payment charge as described in the schedule of Rates and Charges. Should the final date for payment of the bill at the net amount fall on a Saturday, Sunday or holiday, the business day next following the due date will be held as a day of grace for delivery of payment.

A customer shall not be excused from timely payment of any bill or performance required by any notice because of a failure to receive the bill or notice.

2. Electronic Bills. In lieu of receiving a paper bill delivered via the U.S. Postal Service, a customer may request an electronic bill (E-bill) as the preferred method of delivery. The E-bill will be delivered to the email address shown on a customer's Application for Service or E-bill Enrollment Form. A customer may enroll for E-billing, change his/her email address, or cancel a previous request for E-billing by submitting a request to the District. If it becomes necessary to send a Past Due Notice to an E-bill customer, that notice will be delivered by the U.S. Postal Service.

All other provisions of Subsection 1 above, shall apply to E-bill customers.

II. RULES AND REGULATIONS

3. Prorating First and Final Bills. When a customer begins or terminates sewer service on a date that results in the customer receiving less than one month of service and the usage during this period is less than the gallons included in the minimum bill for the meter size at that location, the minimum bill will be prorated based on the number of days the customer received service during that billing period.

4. Metering for Sewer Billing. All sewage discharged into the District's sewer system shall be billed in accordance with the sewer rates as approved by the Public Service Commission based on the gallons of water supplied through the water meter.

When two water meters are required by the District to measure the high and low flows for one connection, the sewer bill shall be based on the combined volume of water used through both meters with the minimum bill and bill computation based on the smallest meter.

All of the applicant's wastewater discharged into the District's sewer must be metered through a water meter of the District or Bowling Green Municipal Utilities. No free sewer service shall be allowed or permitted.

5. Classification of Sewer Service for Purposes of Determining Exemptions from Sales and Use Tax.

a. Residential Classification.

1. Use as a dwelling unit constituting a separate independent housekeeping establishment which is separately metered for water, connected to the sewer and occupied by one or more persons as a single housekeeping unit shall be deemed residential use. The name in which an account is established or billed is a non-determining factor and the structure to which service is to be provided may be under construction, occupied or unoccupied.

II. RULES AND REGULATIONS

2. Agricultural use when provided through the same water meter utilized by the dwelling structure on the property and connected to the sewer shall be deemed residential use.
3. Where water service is installed on property that is intended for future residential use and a sewer service connection is provided, whether the customer's service line is connected initially or planned to be connected in the future, shall be deemed residential use.

b. Non-residential Classification.

1. Any use other than a residential use as defined in Section a. including specifically, but not by way of limitation, industrial and business usage.
2. Mobile home parks served by a single water meter and sewer connection.
3. Multiple dwelling units within one structure when all dwelling units are served by a single meter.

c. Determination of Classification.

The determination of classification as to whether residential or non-residential is based upon the principal purpose for which the water service and sewer connection is provided when it was initially installed or for which the structure is being or has been constructed until the District has been notified by the owner in writing that the purpose for which the water and sewer connections were installed has changed.

6. Wastewater Volume Adjustment.

1. An adjustment of the volume billed for residential and commercial sewer customers may be made upon the customer's request whenever a leak occurs provided the following conditions are met:
 - a. The customer requests the adjustment within two months from the time the customer is billed for the water usage.
 - b. The adjustment will be made considering an average of the three months previous billing. In cases where there is not three previous months to average, the bill may be adjusted utilizing an average of future consumption.
 - c. One month's bill is all that will be eligible to be adjusted per year.
 - d. The customer shall pay the service investigation charge wherein verification is made that a leak has been repaired and the water did not go into the sewer system.
2. When a yard is to be sprinkled with water on a regular basis, the customer may make application for a separate water meter to be utilized for this purpose. This meter will not have any plumbing connected to the wastewater system and will not be billed wastewater charges.

An adjustment of the volume billed for residential sewer customers may be made upon customer's request whenever water is used for temporarily sprinkling yards provided the following conditions are met:

II. RULES AND REGULATIONS

D. DEPOSITS

-N-

An initial deposit or suitable guarantee not to exceed approximately 2/12 of the customer's actual or estimated annual sewer bill will be required before sewer service is provided. Deposits shall be calculated in accordance with 807 KAR 5:006 Section 8(1)(d)1. The deposit may be waived for those customers who apply for a new service connection and pay the connect fee for installation of a sewer tap.

The District may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial difference in usage at the customer's location compared to the usage considered when calculating the initial deposit. An additional or subsequent deposit will not be required of a residential customer whose payment record is satisfactory unless the customer's classification of service changes or the deposit is recalculated at the customer's request in accordance with PSC Rules and Regulations.

Service will be refused or discontinued for failure to pay the requested deposit. Interest as prescribed by KRS 278.460 or other applicable statutes will be paid quarterly by credit to the customer's sewer bill.

Upon termination of service, the deposit and any interest earned will be credited to the bills owed to the District by the customer with any remainder refunded to the customer.

II. RULES AND REGULATIONS

E. SERVICE PROVIDED FROM A SEWER CONNECTION

- a. No more than one residence, including mobile homes may connect to one sewer connection.
- b. A residence and any agricultural usage (with the exception of usage by a tenant dwelling or rental dwelling) may be supplied from the same water meter and sewer connection. A tenant dwelling or rental dwelling is considered a separate residence and must be supplied from a separate water meter and separate sewer account.

- c. Where multiple apartment buildings under separate roofs are built on the same lot, each building may have one water meter and one sewer connection and pay the appropriate connect fees for each. However, at the discretion of the property owner, each apartment within a building may have separate water meters and sewer accounts.

At the discretion of the property owner, one sewer service line may service more than one building on the same lot but should the apartment complex cease to be operated as one entity, the owner of each new lot shall install at least one separate sewer service line from the sewer connection on the District's main for each lot.

- d. Each commercial, industrial, or any other entity must have a separate water meter and sewer connection. Excluding residential and apartment complexes, where a commercial, industrial, or other entity involves more than one structure on a single lot (lot approved by the local Planning Commission), which will be operated as one entity under one entity name, such property can be served by one water meter and one sewer connection.

2. If there is little or no land associated with each individual condominium unit outside the structures, such that the land surrounding the structures is common with other units, each separate structure within a condominium complex may be treated as an individual entity. As such, each structure is required to have a separate water meter and wastewater account, which will be billed to the owner's association. At the discretion of the developer, individual water meters and wastewater accounts may be provided for each unit within a structure.
3. All water meters or wastewater connections must be connected to respective public mains. If a public main is not available, the developer must extend the water and/or sewer main in accordance with the District's extension agreements. Water or wastewater mains should be extended within an easement adjacent to an existing or proposed public right-of-way. In locations where it is not possible to extend mains adjacent to a public right-of-way, mains may be extended in an easement through a privately owned, publicly accessible area.

G. SEWER MAIN EXTENSIONS AND FACILITY RELOCATIONS

1. Sewer Extensions. If no sewer is available at the location service is desired, the applicant can pay for extending the sewer main in accordance with the construction specifications of the District. If existing downstream sewer system facilities do not have adequate capacity for the proposed extension, the entire cost to upgrade existing facilities as required to accommodate the proposed extension shall also be paid by the applicant. The applicant must obtain the District's written approval of all sewer plans and the approval of the state Division of Water before any construction is performed.

The District will perform construction inspection while all work is being performed. No connection to the sewer will be made along the extended section of sewer until all engineering, inspection, and connect fee charges are paid in full. The applicant shall pay for all construction cost and design engineering in addition to reimbursing the District for inspection cost. An agreement for the sewer extension must be executed by the applicant, a copy of which is provided as Attachment B.

2. Relocation of Sewer Facilities. District may, at the request of customer, relocate or change existing District-owned equipment. Applicant shall reimburse District for such changes at actual cost including appropriate overhead.

1. To pay the deposit and connection charges applicable. Deposit is refundable upon termination of service and payment of all accounts owed.
2. To purchase water/sewer service under rates, policies, rules and regulations of the District. No more than one residence, including mobile homes, or business may connect to one water meter or one sewer tap. Where multiple apartment buildings under separate roofs are built on the same lot, each building must have its own water meter and sewer connection. Other usage from a water meter or provided from a sewer connection shall be as defined in rules and regulations of the District. Copies of rates, policies, rules and regulations are available for inspection.
3. To maintain a cut-off valve, service line, and pressure regulator (if necessary). Applicant is responsible for any costs to adjust meter box and equipment to maintain meter top flush with the ground.

OR*The undersigned hereby applies for NEW INSTALLATION of water service from the Water District upon the following terms:*

1. The Applicant will pay to the District the sum established as the non-refundable tap-on fee, which when accepted by the District, will constitute the installation fee for water service.
2. **The tap-on fee for a residential 5/8 x 3/4-inch meter is \$1,600.00.** (Additional charges apply for a road crossing longer than 60 feet.)
3. **For all meter installations larger than 5/8 x 3/4-inch,** the fee is the actual cost incurred by the District for the installation of the _____ inch service which is estimated to be \$ _____. If the estimated cost of the water service connection exceeds the actual cost, the District will refund the credit to the Applicant from whom payment was received. If the cost is greater than the estimate, then the Applicant will pay the balance due. The payment for the estimate is due at the time that the application is received by the District.
4. The meter will be set on Applicant's property within approximately 5 feet of the main, if the water main is on the Applicant's side of the road. If the Applicant's property is on the opposite side of the road from the existing water main, the service will be run under the road and the meter set on private property adjacent to the highway right of way. For 5/8 x 3/4-inch meters the cost of the road crossing is included in the standard tap-on fee, up to a total of 60 feet of service line. If the service line length is more than 60 feet, the Applicant will be required to pay the cost of the excess footage. For meters larger than 5/8 x 3/4-inch the cost of the entire road crossing is paid by the Applicant. This cost is included in the estimated installation fee for larger meters.
5. The Applicant agrees to permit the District to lay, maintain, repair, remove and disconnect a service line and meter, and read meter at a point on Applicant's property to be designated by the District for each meter with right of direct ingress and egress from the road for these purposes over Applicant's property. Gates and ladders for access will be provided by the Applicant.
6. The Applicant will install and maintain a cut-off valve, service line, and pressure regulator at his own expense, which shall begin at the water meter and extend to the dwelling or other portions of his premises. No more than one residence, including mobile homes, or business may connect to a water meter. Where multiple apartment buildings under separate roofs are built on the same lot, each building must have its own water meter. Other usage from a water meter shall be as defined in rules and regulations of the District. Applicant is responsible for any costs to adjust meter box and equipment to maintain meter top flush with the ground.
7. The Applicant assumes responsibility for any damage to metering equipment in making connection to the meter.
8. In consideration of water service to serve the premises of the Applicant, the Applicant agrees to pay for water service at a minimum monthly rate based on meter size in accordance with the rates approved by the Public Service Commission for one consecutive month, beginning on the date service becomes available and continuing monthly until written notice is received by the Water District three days in advance of the requested termination date.
9. The Applicant agrees to purchase water service under rates, policies, rules and regulations of the District. Copies of rates, policies, rules and regulations are available for inspection.

EQUAL OPPORTUNITY EMPLOYER AND PROVIDER

WARREN COUNTY WATER DISTRICT

STATEMENT OF UNDERSTANDING CONCERNING INSTALLATION OF WATER METERS

1. The Applicant is responsible for setting the wooden stake provided by the District at the approximate location where the new water service is to be installed. It is the applicant's responsibility to maintain this stake. When the District's personnel arrive on site to install the new water service and the stake has not been set or has been removed by someone else, the applicant will be charged the additional costs incurred by the District for having to return at a later date to install the new water service.
2. The water meter will be installed with the top of the meter box being at ground level unless otherwise specified by the Applicant at the time application for service is made. The Applicant should caution those making the service connection that if it becomes necessary to remove the meter box, it should be reinstalled with the top being flush with the ground. If the box is altered and has to be lowered, the Applicant agrees to pay any cost involved. If any excavation is done around the meter installation, it will result in the Applicant paying the cost of raising or lowering the service to the proper depth.
3. When the Applicant is connecting to the meter installation, the dirt should be backfilled around the meter up to the top of the lid to keep it from freezing. Connections of non-frost proof hydrants and failure to backfill around the service can result in damage to the meter in freezing weather. Should the meter freeze and break, the Applicant shall be responsible for all water loss and the cost of repairing the meter service. Failure to backfill around the meter may result in the District doing the backfilling; the Applicant hereby agrees to pay the cost involved.
4. A check valve will be installed within the meter installation. The applicant will need to install a properly sized thermal expansion tank and pressure regulator if necessary.

The undersigned hereby applies for NEW INSTALLATION of sewer service from the Water District - Sewer Division upon the following terms:

1. The sewer connect fee is established based on the following schedule: Residential - \$500.00; Business, Commercial, Industrial or Other Establishment - \$1000.00. In certain areas, a Sewer Interceptor Capital Recovery Area contribution may also apply.
2. The Applicant will pay for the actual physical connection of his line to the District's line. This work is to be done by a licensed plumber in accordance with State Plumbing Law, Regulations, and Code and work is to be inspected by the authorized plumbing inspector and an authorized representative of the District before the line is backfilled, and inspected by the District during backfilling. It shall be the applicant's responsibility to maintain the service line free of stop-ups all the way to the District's sewer main.
3. The Applicant agrees to permit the District to lay, maintain, repair, or remove such sewer lines as are the property of the District, which are on the Applicant's property with the right of ingress and egress over Applicant's property.
4. All of the Applicant's water usage discharged into the District's sewer must be metered through a water meter of the District or Bowling Green Municipal Utilities. No more than one residence, including mobile homes, or business may connect to one sewer connection. Where multiple apartment buildings under separate roofs are built on the same lot, each building must have its own sewer connection. Other usage provided from a sewer connection shall be as defined in rules and regulations of the District.
5. The point of connection for the applicant shall be correctly installed. The Applicant will be responsible for any damage to the sewer main in making a service line connection which includes breaking the District pipe or pulling the sewer service line sections of pipe apart. The Applicant shall provide all material for his service line and all required crushed stone to cover the point of connection, bends and service line. No rock shall be placed in the ditch backfill larger than 3" diameter to a level 18" above pipe.
6. Only approved ductile iron and Schedule 40 PVC pipe shall be permitted for any sewer service lines. The pipe must be installed to meet manufacturer's recommendations. No bituminous fiber pipe will be permitted for any sewer service lines. Other types of pipe and their installation must receive District approval and be approved by the State Plumbing Law, prior to installation.
7. Only wastewater is allowed to be discharged into the sewer. Storm drains, roof drains, surface flow, etc., shall not be permitted to be discharged into the sewer. **Wipes and other non-biodegradable material shall not be permitted to be discharged. Applicant shall be responsible for damages due to improperly discharged materials.**
8. Service stations, restaurants, and others who discharge grease and oil shall be required to install approved type grease and oil traps or other acceptable methods of removal before the sewage enters the sanitary system. Applicant may be required to provide a sampling manhole.
9. In consideration of sewer service to serve the premises of the Applicant, the Applicant agrees to pay for service at a minimum monthly rate based on water meter size in accordance with the rates approved by the Public Service Commission for one consecutive month, beginning on the date service becomes available and continuing monthly until written notice is received by the Water District 3 days in advance of the requested termination date.
10. The Applicant must comply with Bowling Green Sewer Use Ordinances as administered by Bowling Green Municipal Utilities.
11. Industrial Applicants must complete the Application for Wastewater Discharge permit.
12. The Applicant agrees to purchase sewer service under rates, policies, rules and regulations of the District. Copies of rates, policies, rules and regulations are available for inspection.
13. The Applicant understands the District's standard procedure is to set a new water meter only after the Applicant's sewer service line is installed and passes inspection. However, if the Applicant requests it, in certain cases the District can install a water meter and provide water service before the sewer service line passes inspection. If this alternative sequence is implemented, the Applicant agrees to one of the two options indicated below regarding commencement of sewer billing as indicated by Applicants initials.

Begin monthly sewer billing with water billing._____
Begin sewer billing after sewer service line inspection and pay Service Connection Charge

PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

SEWER LINE EXTENSION AGREEMENT

THIS AGREEMENT made and entered into on _____, by and between _____ County Water District, P.O. Box 10180, Bowling Green, Kentucky, 42102-4780 (hereinafter referred to as the "District"), and _____, (hereinafter referred to as the "Developer"), whose address is _____.

WITNESSETH: That, whereas, the Developer is the owner and developer of a certain area of land located in _____ County, Kentucky, and which property is identified as _____.

WHEREAS, the Developer is desirous of extending and constructing sewer mains and appurtenances in order to provide sewer service to that certain area of land described above and which is to be immediately made available as construction sites for residential and/or other structures, and

WHEREAS, the District is desirous of providing the sewer service herein described;

NOW, THEREFORE, for and in consideration of the mutual benefits to be derived by the parties hereto, the District and the Developer covenant and agree as follows:

1. The Developer shall employ a Professional Engineer (Developer's Engineer), licensed in Kentucky, to prepare detailed construction plans of the proposed extension. The plans shall comply with the District's Design Standards for Extensions. The Developer's Engineer shall submit the plans to the District for its review and approval and the Developer's Engineer may be required by the District to revise the plans prior to the District issuing its written approval. When the plans are approved by the District, an AutoCad file shall be delivered to the District for its use in producing as-built drawings.

2. After approval by the District, the Developer shall obtain approval from the Kentucky Department for Natural Resources and Environmental Protection, Division of Water before any work is performed on extending sewer mains. This requirement is in accordance with the Kentucky Public and Semipublic Water Supplies regulations (401 KAR 5:005) as relates to the Kentucky Revised Statute 224.

3. The Developer will obtain all required easements, both on and off the Developer's property. The District's standard easement form must be executed by the property owners involved to allow access to the proposed sewer lines. A permit or letter of authorization must be obtained from the applicable city, county or state agency if proposed facilities encroach in existing public rights of way.

4. The District shall perform daily construction inspection and the Developer shall reimburse the District for actual costs involved with inspection, including work required for as-built drawings, and all other costs incurred by the District related to the extension. The Developer's Contractor shall provide an estimate of the construction period and based on this, the District will estimate the cost of inspection services. Before any water or sewer construction begins, the Developer shall deliver a deposit to the District in the amount equal to the estimated cost for inspection. If the construction period approaches the time estimated and/or the deposit for inspection services is nearly expended, all construction work shall cease until the Developer makes an additional deposit to the District to cover an additional estimate of the work to be performed by the District. The Developer shall employ a Contractor who shall schedule his work so that the District's inspection services are not required on Saturdays, Sundays or any holiday observed by the District.

5. All sewer lines and appurtenances shall be constructed in accordance with the approved plans and the District's Standard Specifications for Extension Agreements. The Developer's construction Contractor shall be experienced in the type of work to be performed and shall be approved in writing by the District's Engineer before the Developer enters into an agreement with the Contractor. The Developer shall be responsible to direct the Contractor and shall authorize and direct all work to be performed in a continuous orderly manner as approved by the District's Engineer at a pre-construction meeting between the Developer, the Contractor and the District's Engineer. If the Contractor does not perform the work in a continuous orderly manner, the Developer shall notify his Contractor to discontinue work until such time as the work can be completed in an orderly manner. The District's Engineer shall have authority to direct the Contractor to cease work until the Developer, the Contractor and the District's Engineer agree on a construction schedule that is mutually acceptable.

6. Sewer mains shall normally only be extended parallel to an existing or proposed public road which is regularly maintained to allow daily travel. Where there is a new street or road to be constructed, the Contractor shall be responsible for the street or road and drainage facilities must be completed prior to the installation of the sewer main. The Developer's Contractor will install service lines to every lot within the proposed development. The Developer's Contractor will be responsible for meeting street compaction requirements of the Planning Commission, the County Road Department, or any other agency.

PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

7. The sewer lines shall be constructed initially with consideration for future grade work; however, if in the future, the area through which this sewer line construction passes requires grade work, and adjustments to the sewer line and appurtenances are required, the Developer agrees to reimburse the District for expenses incurred for said adjustments. Any changes in the original development plan which cause adjustments to sewer system facilities, including service lines will be at the expense of the Developer. If such adjustments to facilities are required, the District will estimate the cost and the Developer will pay an advance deposit in that amount for the District to make the adjustments. The District will not sign a revised plat until the advance deposit is paid by the Developer.

8. Connection of the sewer line extension to the existing sewer system does not constitute acceptance of the facilities by the District. When the Developer's Contractor requests it, the District will perform a final inspection of the extension. (Final inspection and testing of sewer extensions will not be performed until all other construction in a development is complete.) A list of any items not conforming to the approved plans and standard specifications will be provided to the Developer and his Contractor. When all items on this list are performed the construction will be considered complete. The Developer shall provide the District with a summary of all construction costs. The Developer and his Contractor shall each provide a Release of Liens to the District indicating that all costs related to the sewer line extension have been paid. When the construction is complete, Releases of Liens and the Construction Cost Summary are delivered as described above and any amounts due the District are paid by the Developer, the District will notify the Developer in writing of its acceptance of the extension. The District will not provide service to any customers on the sewer line extension until it is accepted.

9. The Developer shall guarantee all materials and work included in the sewer line extension for a period of one year from the date it is accepted by the District. Defective materials or work that does not jeopardize service to the District's customers may be corrected by the Developer's Contractor. However, when a failure of the sewer line extension work creates an emergency which threatens service or poses an inconvenience to the District's customers the District may perform the warranty work. Work may be performed by the District under the above conditions prior to the commencement of the warranty period. The Developer shall pay the District for the actual cost of all such work. The ending date for the warranty period will be included in the District's acceptance letter.

10. Upon completion of construction of the sewer line extension and acceptance by the District, the Developer shall relinquish any and all control over the facilities covered by this Agreement. The District shall thereafter be responsible for maintenance of the sewer line extension and such facilities shall immediately become an asset of the District.

11. The District is specifically granted the right to make extensions to any sewer lines which are the subject of this Agreement, at no expense to the Developer, and without any reimbursement to the Developer for any connections made on said extensions constructed by the District. Final authority relative to additions, extensions, taps, and/or uses of the subject sewer mains and appurtenances shall rest solely with the District.

12. The Developer or the person applying for service shall make a standard contribution in aid of construction based on the established connection charge for each type of service connection requested, without exception.

13. Any reasonable legal expense incurred by the District to enforce provisions of this agreement shall be paid by the Developer.

14. If the Developer made any contribution toward the cost of construction of the subject extension and is in compliance with the terms and conditions of this Agreement, the Developer will be partially reimbursed by the District under the following terms and conditions:

- A. The Developer must qualify for reimbursement within a term of ten (10) years from the date of this Agreement.
- B. For each sewer service connection added, the Developer shall, upon his request, be reimbursed by the District in a sum equal to \$400 for each residential service and \$900 for each industrial/commercial service connected within each six (6) month period, but in no event shall reimbursement be paid for connections after ten (10) years from the date of this agreement, or after the original cost of the extension has been recovered by the Developer.

IN WITNESS WHEREOF, witness the hands of the parties hereto on this day and date first above written.
