Rev. 05/2024

**WARREN COUNTY WATER DISTRICT
P O BOX 10180, BOWLING GREEN, KY 42102
WATER LINE EASEMENT**

THIS EASEMENT made and entered into on this _____ day of _____, 20____, by
and between _____, the Grantors, hereinafter
referred to as "Owner(s)," party(ies) of the first part; and the **WARREN COUNTY WATER DISTRICT** of Warren
County, Kentucky, the Grantee, hereinafter referred to as "District," party of the second part.

WITNESSETH: WHEREAS, the District is now constructing a water line which will pass through
and be located on Owner(s) land; and

WHEREAS, the Owner(s) desire(s) to assist the District by furnishing an exclusive easement and
right of way through and upon said property in view of the benefits to be derived from the construction,
maintenance, and operation of the water line and appurtenants;

NOW, THEREFORE, the Owner(s), for and in consideration of the mutual benefits to be derived
by the parties hereto, and other good and valuable consideration, the receipt of which is hereby acknowledged, do
hereby give, grant, bargain, and convey unto the District, its successors and assigns a permanent, exclusive
easement and right of way for the water line and its appurtenances upon and under a strip of land located in
Warren County, Kentucky, as shown on the attachment, as filed in the office of the Warren County Water District,
523 U.S. 31-W Bypass, Bowling Green, Kentucky, the strip being _____ feet in length, more or less, and being ten
(10) feet wide, and lying five (5) feet on each side of the water line, being more particularly described in the
drawings attached hereto and made a part hereof. The Owner further covenants and agrees not to purposely
remove the dirt cover over the top of said water line to a level less than twenty-four inches. The Owner further
covenants and agrees not to build or place any structure on or in proximity to the water line without the express,
written consent of the District and in no event shall the Owner erect a structure which impedes the ability of the
District to access said water line.

The Owner(s) further give, grant, and convey unto the District, its successor, agents, or assigns, a
temporary construction easement and right of way for the installation of the water line, and said strip being
_____ feet in length, more or less, and thirty (30) feet wide, and lying fifteen (15) feet to the right and fifteen (15)
feet to the left of the center line, which was more particularly described as aforesaid. Said temporary easement will
dissolve upon completion of construction and restoration.

Permanent easements of the widths and nature described above are also hereby granted to the District for service line installations and other appurtenances from the water main to the road right of way. The right of way and easement herein conveyed is a portion of the property conveyed to the Owner(s) by _____, by Deed dated the ____ day of _____, _____, and of record in Deed Book _____, Page _____, in the Office of the Warren County Clerk.

The District, its successors and assign, shall have the right of ingress, egress, and regress to and from the above described easement and right of way, and shall have the right to install, maintain, remove and repair the water lines and appurtenant facilities to the water line including service lines on the opposite side of the road. The District is also granted permanent access to its easement and right of way by use of other portions of the Owner(s) property to minimize impact to Owner(s) improvements (e.g. the District may use existing gates and/or lanes, etc.).

The Contractor will be required to backfill cuts or ditches which will be reseeded and any damage done to driveways, fences, sidewalks, or any other improvements on the property will be replaced and/or repaired at the expense of the Contractor. Reimbursement will be made for crops damaged during the initial construction of the water line.

IN TESTIMONY WHEREOF witness the hands of the Owner(s) on this the day and date first written above.
